Subject: RE: Staff Review- SUP Application for 660 Mountain Road

Brittany,
Review of the proposed site plans disclosed adequate fire apparatus access. However, we are requesting that the fire hydrant located by Unit 15 (as shown on Sheet 2.51) be relocated to the intersection of Mountain Road with the 41/2 inch connection facing mountain road. This relocation will upgrade the fire protection on Mountain Road while making the hydrant accessible for the protection of Units 1, 2, 15 & 16.

The fire that you prevent may be the one that would have taken your life!
